

Motorbike Chain Lube

Description

Fully synthetic, extremely adherent and waterproof chain lubricating grease. With outstanding creep and lubricating effect. Particularly suitable for fast-running chains. Reduces chain elongation and helps to extend chain service life. With complex ester technology. Full effectiveness only when used unmixed.

Properties

- reduces chain elongation
- friction and wear reducing
- resistant to acceleration forces
- excellent adhesion
- especially cold, hot and splash-water resistant
- highest load-carrying capacity
- excellent penetration action
- outstanding corrosion protection

Our information is based on thorough research and may be considered reliable, although not legally binding.

Technical data

Base	Synthetic oil, additives
Color / appearance	clear, yellowish
Operating temperature range	-30 bis +180 -30 to +180 °C
Odor	characteristic
Form	liquid, aerosol
Flash point	-10 °C

Areas of application

For initial and maintenance lubrication of power-transmission chains. Especially suitable for dusty, dirty and corrosive conditions. For high-load and fast-running chains with and without O-rings and X-rings.

Application

Before use we recommend cleaning the chain with Motorbike Chain and Brake Cleaner (part no. 1602). Then spray the chain with Motorbike Chain Lube. The lubricant attains its final consistency and adherence once the solvent has evaporated.

Available pack sizes

250 ml Can aerosol	1508 D-GB-E
250 ml Can aerosol	20741 DK-FIN-N-S
250 ml Can aerosol	20937 JP
250 ml Can aerosol	5962 D-F-I-GR
